

# RAIN BARREL WORKSHOP

**SATURDAY, DECEMBER 9, 2017**

**9AM-11AM**

**6005 BAYOU HERON ROAD  
MOSS POINT MS, 39562**

Rain barrels collect and store water during storms that can be used for: watering your lawn or plants in your garden, washing your pets, and cleaning your car. They are a great way to save money on your water bill while helping reduce the impacts of stormwater runoff.

The Grand Bay NERR will be conducting a workshop on December 9th with information on rain barrels and their importance followed by the construction of the barrels.

**Please contact Dennis McGrury to register (228-523-4190 or [dennis.mcgrury@dmr.ms.gov](mailto:dennis.mcgrury@dmr.ms.gov)).**

**Cost is \$35 per barrel constructed.**
